

SAFETY GREASE CLEANER

PRODUCT CODE: 95515

Specially developed product for use with the HEY Foam Box. Ultimate safe to use product for lighter grease removal. Can be used in all areas of commercial kitchens. Safe to use in confined spaces and on soft metals.

Instructions for use.

Product to be used in its current form. Test before using on soft metals such as aluminium etc.

Apply to the surface using the Foam Box. Leave on the surface for a maximum of 15 minutes, for the product to break down the pollution.

To speed the process up, the surface can be agitated with a scourer to help break down the pollution more quickly. The Foam will turn brown when it is breaking down the pollution.
