

# ULTIMATE CARBON AND GREASE CLEANER

**PRODUCT CODE: 95595**

Specially developed product for use with the HEY Foam Box. Highly concentrated grease cleaner for the removal of heavy and carbonised deposits.

Instructions for use.

Product to be used in it's current form. Test before using on soft metals such as aluminium etc.

Apply to the surface to be cleaned as a liquid, or for better results as a Foam and leave for a maximum of 10 minutes, for the product to break down the pollution.

To speed the process up, the surface can be agitated with a scourer to help break down the pollution more quickly. The Foam will turn brown when it is breaking down the pollution. Do not let the product dry and rinse thoroughly after use with water.

## UN1814

### TECHNICAL DATA AND STORAGE

Physical State: Liquid

Colour: Transparent/Light Brown

Odour: Characteristic

PH Value: 13.9 (Base)

Foaming Qualities: Highly Foaming

Storage Temperature: Minimum 5° Max 25° Avoid extreme temperatures - Store Frost Free

Shelf Life: 2 Years after production date
